

COLUMN SIZE & SELECTION CHART

Protect-it MAXI's unique ability to fit literally any size and shape column is limited only by your imagination. As an example, Protect-it MAXI will fit ALL of the 470 column size options listed below and shows the number of Protect-it MAXIPAC's required for a variety columns sizes & shapes.

ALL sizes are derived from one SKU called a Protect-it MAXIPAC. Part number 500-100.

A Protect-it MAXIPAC contains 20 individual Protect-it MAXI's, 8 pins and assembly instructions and is only sold by the pack. If one MAXIPAC exceeds your requirements, we recommend keeping the balance as spares.

Protect-it MAXI is designed for a 500mm minimum (20") height and can increase in 500mm (20") increments.

If you need to go higher simply increase the number of packs.

SQUARE and RECTANGULAR COLUMNS													Millimetres																		
How many Protect-it MAXIPAC's do I need?													Inches																		
If you require protection of 1000mm (40") height, simply double the quantity recommended in the table
