

Dear Paul,

I have been in the warehousing industry for over 15 years and have tried numerous "racking protectors" all of which the idea was ok but the design just wasn't there. Instead of reducing the risk – They increased the risk!

So when I was asked to view another racking protector, I must say I had my doubts! I would like to congratulate you and your company; finally we have a rack protector that actually works. The simple design, simple installation and it's economical. We trialed a number of the units for a period of 6 weeks and in that time the protector had proven its worth. We will be soon introducing these protectors to all our locations.

I would be pleased to speak directly to any company considering using the "Protect it" racking protectors, I have no hesitation in recommending their unmatched performance.

Yours sincerely

**Mark Nisbet**
